95th German Medical Assembly 1992 in Cologne

Dear Mr. President,

Today we have written to the President of the Trade Union of Latvian Medical Workers, who informed us that due to currency problems he would not be able to attend the General Assembly of the German Medical Association. We suggested that you examine the possibility to eventually arrange the transport together with the representatives from Lithuania and Latvia.

We regret very much that we cannot contribute to solving this problem in another way and hoping to be able to see you in Cologne.

Sincerely yours

R. Vonhoff-Winter

Dear mrs. R. Vonhoff.

Unfortunately we are not able to attend the General
Assembly of the German Medical Association.

Hope, our economical situation will improve in the
future and we shall be able to develop our foreign con-
tacts much more.

We are greatly appreciated from the invitation to take
part in the 95-th German Medical Assembly and we are
interested to continue the cooperation between the German
Medical Association and our Association.

My best regards to mr. President and to other
Colleagues in Köln.

Sincerely your Väino Sinisalu
