Tartu, August 20, 1992

Dear colleague,

We have a great pleasure to get Your information about foundation the Association of Ukrainian Doctors. <sup>was re-</sup> established in 1988. The similar organization existed in the years of Estonian Republic in 1921- 1940. Now we have about 3500 members.

Our organization is founded with the aim to unite physicians for better developing their work and for raising their professional level, taking part in working out and implementing our health policy, solving problems in the sphere of medical ethics.

Since April 1992 we have also the functions of trade union for safeguarding our members' rights and interests connected with working conditions and economical side of their work.

We are very interested in having contacts with medical associations and other organizations from foreign countries and changing information with them.

We Will be pleased to develop contacts between the Association of Ukrainian Doctors and our association.

With best regards,

Vaino Sinisalu

president of Estonian  
Medical Association
