Dear Professor Sinisalu.

I am writing to you on behalf of the Norwegian Medical Associations Committee for Co-operation with Baltic States. We are co-ordinating the assistance to our Baltic colleagues and are now organizing a course in Disaster Medicine in Riga from September 30th to October 3rd.

This Project was given very high priority by the Latvian Med. Ass. and the Lithuanian counterpart is also very interested. See program.

We would like to invite up to 10 Estonian colleagues also to the course and therefore ask for your assistance in finding suitable candidates. The course will take place in hotell VAIVARI in Jurmala where the participants also will be staying, and the Norw. Med. Ass. are going to pay the expenses for the journey from Estonia and for the stay in Jurmala.

The course is meant for experienced, internists and health administrators, and we plan to follow it up with another in Norway next year.

I sincerely hope it will be of interest to our Estonian colleagues and am looking forward to hear from you.

Sincerely Yours

Erik Midelfart.
